WORK PROJECTS

AQMAS - Active Queueing Management System

Mobile kiosk and counter apps integrated into an existing VB6/Angular queue system deployed in Cabadbaran City. Features real-time queue sync, counter staff tools, and thermal ticket printing

- **Role:** Mobile Developer
- **Technologies:** Expo React Native, Kotlin, Redux, Bluetooth, ESC/POS, AsyncStorage

VMS - Visitor Management System

Mobile kiosk and departmental systems for an existing Angular-based visitor management system at BIR Butuan. Features photo/ID capture, QR scanning, real-time sync, and thermal badge printing.

- **Role:** Mobile Developer
- **Technologies:** Expo React Native, Kotlin, Redux, Camera API, QR Scanner, Bluetooth, ESC/POS, AsyncStorage

BMS - Barangay Management System

Developed a web-based information management system for barangay administration. Features resident and household management, certificate generation, blotter/incident records, reporting dashboards, and document tracking to digitize community services and record-keeping.

- **Role:** Full-Stack Developer
- **Technologies:** PHP, MySQL, JavaScript, Bootstrap, jQuery, AJAX

ACHIEVEMENTS & COMPETITIONS

National Innovation Day 2026 (LUNSAD) – DOST Caraga

April 2026 | Caraga State University, Butuan City

- Developed and pitched **EyeSOS**, an emergency response application enabling one-tap SOS alerts with real-time location sharing.
- Participated as a solo developer, handling both application development and project presentation.

1st Place – Hackathon, CITE Techno Fair 2024

November 2024 | Tandag City, Surigao del Sur

- Collaborated with a team to design and develop a solution addressing real-world cybersecurity challenges.
- Awarded **Champion (1st Place)** for technical execution, innovation, and presentation.

Hack4Gov Capture the Flag 2024

August 2024 | Butuan City

- Competed in a cybersecurity Capture the Flag event focused on cryptography, web security, reverse engineering, and digital forensics.
- Strengthened practical problem-solving and security analysis skills.

Programming Competition – PSITE 2024

May 2024 | Caraga State University, Butuan City

- Solved algorithmic and programming challenges under time constraints.
- Demonstrated analytical thinking, coding efficiency, and competitive problem-solving skills.
